WATCH: [Involvement is not Rocket Science](#)

READ: Galatians 6:10; 1 Peter 5:2

DO: Scripture encourages believers to have involvement in the “household of faith.” On a piece of paper, prayerfully write down at least five ways that you can be involved in your church. It may be through being the church’s photographer, giving the children’s story, supporting youth ministry through your attendance and participation, offering to clean the church grounds with friends, making a Facebook page for the youth, the opportunities are endless. Make sure you share you interest to be involved with someone at your church. Chances are, they will welcome the help without hesitation.
